## Say NO to Parallel Parking

The Downtown Businesses listed below are asking for your support!

Through spring meetings, and recent poster campaign, the overwhelming majority of businesses have let the Mayor and Council know of our strong objection to returning to the "old" style of parallel parking they insist on implementing on 3rd Avenue this coming Spring 2010.

- Reasons for NOT wanting parallel parking.**
- Immediate loss of 60% of parking on 3<sup>rd</sup> Avenue
    - Requires a higher degree of driving skills
    - Longer time spent negotiating parking space
      - Loss of customers
    - Increased risk of vehicular accidents

Please complete the form below, printing clearly, and drop it off at any of the businesses below  
 We want to let the Elected Officials know the wishes of the public  
 with regard to changing the format of parking downtown.  
 We will present them with the results of these forms on Tuesday, February 16.  
 Please return them to us **As Soon As Possible**.
